

Metro Weather Co., Ltd. Selected for Microsoft for Startups Program Designed to Support Startups from Idea to Exit

<2021.10.15> – Metro Weather Co., Ltd., a leading technology company that provides high-precision information on wind conditions using compact, high-performance Doppler Lidar, today announced its induction into [Microsoft for Startups](#), a global program dedicated to accelerating the trajectory of startups with access to the resources they need, when they need them. As a program member, Metro Weather Co., Ltd. will have exclusive access to Microsoft technology, mentorship and business support.

As a result of being selected as a Microsoft for Startups, Metro Weather, Co., Ltd. will provide wind information solutions as an advanced enterprise cloud service utilizing the most advanced Microsoft Azure and will actively promote the development of applications utilizing the latest front-end technologies. Metro Weather Co., Ltd will use Azure to reach a wide-scale audience in a short time, with built in redundancy and security.

“We’re honored to be among such a select group of companies from around the world chosen to join the Microsoft for Startups program, and we plan to leverage this amazing opportunity to its fullest,” said Dr. Furumoto, CEO of Metro Weather Co., Ltd. “Our participation in the program comes at a critical time for our company as we launch our Wind Information Solution for customers.”

“Metro Weather Co., Ltd’s mission to address an unresolved problem in one of the fastest-growing segments of the air mobility industry is a great fit for the program. We look forward to helping Metroweather deliver their innovative solution to our joint customers,” said Tom Davis, Senior Director, Microsoft for Startups, Microsoft for Startups.
